(a) baboons: delayed alignment
coupling J_τ
global, no time fields
3 nearest, time fields
time-shifted
delay τ (s)
(b) baboons: decay with rank
J_1 of one neighbor
time-shifted
neighbor rank
(c) baboons: ahead vs behind
coupling J_τ
ahead
behind
time-shifted
delay τ (s)
(d) pigeons: delayed alignment
coupling J_τ
nearest, time fields
time-shifted
delay τ (s)
(e) pigeons: flock-wide
J_1 relative to nearest
headings
speeds
time-shifted, speeds
time-shifted, headings
neighbor rank
(f) group average: depth
data
time-shifted
T cells
baboons
pigeons
